Physical Distancing in Warehouse/Production Floor

Mobile "Personal" Printing Stations bring your team to the work, and slash the time they waste walking. Labels are printed and applied right at the pallet. Receiving/Shipping volume skyrockets, labeling errors disappear, and labor costs drop. All while employees report greater job satisfaction and a safer work environment.

Features / Benefits

- Worker Safety: Helps ensure physical distancing as your printer/scanner/laptop or tablet can always be within 6' -10' away from other workers
- Typical ROI < 6 months for complete system
- 90+% reduction in labeling errors
- 50% increase in productivity
