## Remote Covid-19 Testing

A mobile application to collect patient data, create labels for samples, and validate patient data for COVID-19 Drive-Thru Testing Sites. Patient information is captured on a Zebra TC52-HC Mobile Computer. Labels are the generated on Zebra's ZQ610 Mobile Printer.

## Features / Benefits

- Quickly and accurately capture patient information automatically from ID's
- Complete a standard COVID-19 assessment
- Manage and expedite the check in and testing process
- Print labels for patient's test tubes and bags
- Provide vital information on test results
