

COVID-19 Solutions

IN-WINDOW HIGH BRIGHT SIGNAGE SOLUTION

PRODUCTS INCLUDED:

- LG 49" High Bright Display
OR LG 55" High Bright Display
- Peerless Universal Cart for Flat Panel Displays
- Peerless Universal Ceiling Mount (Optional)
- FREE 60 day trial of Ping HD PHD-1-1 Software

YOUR MESSAGING WHEREVER YOU NEED IT

LG's XS4F series window-facing digital signage displays captivate customers with brilliant and vivid image quality. Paired with the Peerless cart stand, optional ceiling mount, and PING HD software, this solution allows users to show bright relevant messaging to customers outside of the building before they enter. Use PING HD's customizable COVID-19 templates to design and manage content that educates the consumer.

Please note The PING HD PHD-1-1 content will expire after 60 days. To keep content running users must purchase a 1, 3, or 5-year license from their BlueStar Sales Representative for each display.

Features & Benefits

- With a stunning brightness of 4,000 nits, the XS4F series clearly delivers content and attracts public attention.
- Available in 49" or 55"
- Mount the Window Facing LG XS4F display with the optional Peerless PLCM-UNL-CP ceiling mount or use the Peerless SR560M cart for mobility.
- Ping HD allows you to control every aspect of your digital signage from one single web-based platform.
