## YOUR MESSAGING WHEREVER YOU NEED IT

With the LG UH5 series, you can display top quality graphics and messaging in crisp detail that can hold up to the closest scrutiny. That, combined with the Peerless Universal Cart allows you the flexibility to display your messaging in any location. This solution is an excellent resource for on-the-fly displays in pop-up lobbies or long queues. Communicate with your patients and customers at any location and keep your displays updated moment to moment with Ping HD software. The Indoor Digital Signage Healthcare Messaging Bundle is more than capable of meeting your needs.
